## Our Advantage

A team of 100+ experienced developers and designers, ready to help you build your web and mobile applications. We provide both back-end and front-end development. Our teams build web applications powered by bulletproof code, with stunning interfaces based on responsive web design.

If you have individual software solutions that work, but don't talk to each other, you are probably entering things more than once and missing a comprehensive overview of what's going on.

DSD apps are perfectly integrated with each other, allowing you to fully automate your business processes and reap the savings and benefits.

Between the DSD apps and the tens of thousands of Community apps, there is something to help address all of your business needs in a single, cost-effective and modular solution: no more work to get different technology cooperating.

Our family of apps work seamlessly together - giving you the ability to automate and track everything you do - centralized, online, and accessible from anywhere with any device.

**How do**  
**you want to leave**  
your mark on the global.

Inventory

Modern online warehouse management software.

Operations

Project

Schedule your teams across projects taking employees' holidays into account.

# Order & Contract & CRM

Automate operations and focus on customer relationships and revenue.

**From quotations to sales orders.** Convert quotations into sales orders with a single click, or let the customer sign off on it with a simple prganization form.

**Contract management.** Invoice customers based on time and materials, easily record contracts and track invoicing phases, maintain renewal and up-selling opportunities, and manage your subscriptions with DSD's recurring contracts.

**Let your customers help themselves.** The customer portal gives your customers access to their quotations, sales orders, and delivery orders. Save time and use DSD Sign to easily get signatures on NDAs, contracts, or any PDF document.

Keep track of all interactions with your opportunities and customers and improve your sales cycle.

**Great Tools = Happy People** Schedule activities based on your sales scripts: calls, meetings, mailing, and quotations. Get all the information you need, directly on the opportunity: website pages viewed, mail received, etc.

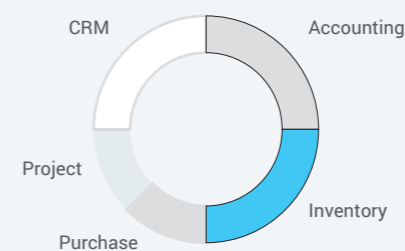

**Real-time overview.**

**Easily review your performances & next activities.** Know exactly how you perform compared to your monthly targets. Organize your work based on your scheduled next actions.

**Real-time messaging to enhance collaboration.** Get a quick overview of what's going on in your team. See when a colleague logs a call or sends a quote. Share ideas and files in real-time and catch-up on things you missed when you were away.
